## How to Build a Quote 🔒

Last Modified on 09/01/2020 2:38 pm EDT

Within the B2B platform, you can generate a custom quote and calculate financing for items in a selected list and then print or email the customer a copy.

After you've created a list on the B2B platform, you can access the Quote fields by clicking on the List & Print Options button in the list widget.

On the list page there are four tabs; click on the third one (titled Quote). This is what it should look like:

PDF BROCHURE		PRICE TA	AG	QUOTE	MAGIC POCKET
ADDITIONAL ITEMS		ADDITIONAL ITEMS PRICE	FITMENT	EXPIRATION	
		0.00		00/00/00	
		PRICING	CUSTOMER NAME	METHOD	CALCULATE
		Installed $\checkmark$		One Time 🗸 🗸	EMAIL
					PRINT
Financed Amount:	\$13,400	ADDITIONAL PARTS/ACCESSORIES TOTAL \$764.22	TOTAL MONTHLY PAYMENT (Vehicle and Accessories) \$1,011.73	TOTAL PAYMENT IMPACT	PRINI
Months:	14			\$54.59/mo	

The Quote page contains multiple fields you can use to further customize a customer's quote:

- 1. Additional Items. By entering a description in the Additional Items box and the price in the Additional Items Price box, you can add any special, non-cataloged items to the quote.
- 2. Fitment. Enter a specific Fitment, if it's relevant to the quote.
- 3. Expiration. Set an Expiration date, in case prices for items change.
- 4. **Pricing**. There are five options for Pricing: MSRP, MSRP + Installation, Online Price, Online Price Installed, or Our Price.
- 5. Customer Name. Add the Customer's Name
- 6. Method. Select the payment Method (currently, One Time is the only option available)
